HEAT PUMP

SOLAR PV

# FlowCyl

The UK's Widest Range of Universal  
Heat Pump Cylinder Solutions

UK CYLINDERS

YOUR HOT WATER SPECIALISTS

# UK **Cylinders**

## Your Hot Water Specialists

Based in the UK, we are focused on service, availability, quality, performance and reliability. Utilising the vast experience of the team at **UK Cylinders** and our processes and procedures to deliver on these key objectives.

We are a market led company with many years' experience in manufacturing and product development, this ensures our products exceed our customers needs.

**UK Cylinders** hold strong values in terms of supporting customers requirements in an ever changing market.

OUR AIM IS TO PROVIDE THE BEST QUALITY AND VALUE HOT WATER STORAGE PRODUCTS AND TO CONSIDERABLY EXCEED OUR CUSTOMER EXPECTATIONS BY PROVIDING MARKET LEADING SERVICE LEVELS IN ALL AREAS OF OUR BUSINESS.

SERVICE | AVAILABILITY | QUALITY | PERFORMANCE | RELIABILITY

Your Hot Water Specialists | [www.ukcylinders.co.uk](http://www.ukcylinders.co.uk)

## Quality and Service

Customer service is at the forefront of the business philosophy at UK **Cylinders** which means the team know **THE CUSTOMER ALWAYS COMES FIRST.**

We will respond and reply same day to any requests.

Please contact us on **03330 329 650** or **sales@ukcylinders.co.uk**

## Availability and Stockists

We carry significant stock of a wide range of products in our warehouses, as well as stock on the ground with our merchant partners.

At UK Cylinders, we pride ourselves in working closely with our network of merchant stockists, supporting them providing hot water solutions to their customers.

Please contact us on **03330 329 650** or **sales@ukcylinders.co.uk** if you require details of your local stockist.

## Environmental - and a more sustainable future

Our environmental management system allows us to promote efficient manufacture of our products.

Key processes and procedures help us to move towards a more sustainable future and minimise any negative impact on the environment.

**Specially designed heat pump coil**

# Heat Pump Cylinders

All our Universal heat pump cylinders feature a unique high flow, high gain, full bore coil design which we manufacture in house, to provide superior performance.

The FlowCyl is fitted and supplied with all the required components and controls (shown opposite) to provide seamless compatibility with your chosen heat pump.

## SPECIFICATION

- > Universally compatible with any heat pump
- > Supplied with a manufacturer's backed 25 year cylinder warranty and 2 years parts warranty.
- > Available in capacities from 120ltr - 600ltr.
- > Manufactured from high grade 1mm thick Duplex Stainless Steel.
- > Fully insulated with 50mm 100% CFC and HCFC free polyurethane to minimise heat loss.
- > High quality **100% recyclable** silver casing.
- > Supplied with high quality unvented components.
- > All plumbing connections are clearly identified with their description embossed into the cylinder case.
- > Supplied with 22mm hot and cold connections on 120ltr - 300ltr, 28mm hot and cold connections on 400ltr - 600ltr.
- > 12mm sensor probe pocket included for heat pump controls.
- > Market leading and highly efficient primary coil to ensure rapid exchange of heat from heat pump.
- > Long-life 3kW Incoloy immersion heater supplied as standard.
- > Immersion heater upgrades available upon request - i.e. Titanium or 6kW.
- > Supplied with all safety controls as required by UK Building Regulations.

# Efficiency

## Market leading heat exchanger

The FlowCyl heat pump cylinder is fitted with a market leading high efficiency heat exchanger (coil) with an enhanced surface area to ensure the rapid transfer of the low temperature inputs of ground & air source heat pumps.

The FlowCyl heat pump range comes complete with all the fittings you will need for a complete trouble free installation. All the items provided in the unvented kit, ensure your installation meets Part G of the Building Regulations.

### ACCESSORIES SUPPLIED WITH STANDARD HEAT PUMP CYLINDERS (for pre plumbed see specific content pages)

COLD WATER  
INLET SET

TWO PORT ZONE VALVE  
28MM

HIGH LIMIT STAT

TUNDISH

3KW IMMERSION HEATER

T&P RELIEF VALVE

T&P COVER

EXPANSION VESSEL  
AND BRACKET

## Heat Pump Pre Plumbed

- > Universally compatible with any heat pump.
- > 3 port full bore, 28mm compression DHW & CH diverter valve.
- > 4 bar pressure gauge.
- > Fill & flush valve with servicing ports. Useful to fill and flush the system with cleaning chemicals or water treatment.
- > Optional 8m circulating pump for primary circuit.
- > G3 compliant cold feed pipework, inc. tundish, drain point, filling loop and 3 bar inlet control set.
- > Our 28mm full bore, high gain, high flow coil reduces noise and improves recovery times.
- > A T&P insulation cover and potable expansion vessel is also supplied.
- > Factory fitted immersion heater, for emergency backup this can be linked to a heat pump for an anti legionella cycle where required.
- > 12mm sensor probe pocket.

**Slimline Pre Plumbed also available**  
see page 8

## Heat Pump and Buffer Combined Pre Plumbed Options

- > Universally compatible with any heat pump.
- > 3 port full bore, 28mm compression DHW & CH diverter valve.
- > 4 bar pressure gauge.
- > Fill & flush valve with servicing ports. Useful to fill and flush the system with cleaning chemicals or water treatment.
- > 6m Circulating pump supplied fitted for heating circuit.
- > G3 compliant cold feed pipework, inc. tundish, drain point, filling loop and 3 bar inlet control set.
- > Our 28mm full bore, high gain, high flow coil reduces noise and improves recovery times.
- > **Optional 8m circulating pump for primary circuit.**
- > Robokit / T&P insulation cover and potable expansion vessel is also supplied.
- > Factory fitted immersion heater, for emergency backup this can be linked to a heat pump for an anti legionella cycle where required.
- > 12mm heat pump sensor probe pocket.
- > Buffer provides hydraulic separation and minimum system volume.

Supplied complete with 12ltr Robokit including heating expansion vessel (loose).

Description	Product Code with 2 Circulating Pumps	Product Code with 1 Circulating Pump	Nominal Capacity (L)	Weight (KG)	Weight full (KG)	Height (mm)	Diameter (mm)	Heat Pump Coil Surface Area (m <sup>2</sup> )	Standing Heat Loss		Secondary Return Included as standard	ERP BAND

## Heat Pump and Buffer Combined

- > Universally compatible with any heat pump.
- > Using a buffer tank is often described by heat pump manufacturers as "the ideal installation" providing optimum performance.
- > Our built in buffer features 1" female connections as standard.
- > One neat solution providing a heat pump cylinder and buffer in the same footprint, saving both time and space.
- > 12mm sensor probe pockets provided in both buffer and heat pump cylinder.
- > Buffer provides hydraulic separation.

Available in both slimline and standard diameter options, see below.

Description	Product Code	Nominal Capacity (L)	Weight (KG)	Weight full (KG)	Height (mm)	Diameter (mm)	Heat Pump Coil Surface Area (m <sup>2</sup> )	Standing Heat Loss		Secondary Return Included as standard	ERP BAND

# Solar PV Priority Cylinder

Free hot water from your PV array

Due to the growth in popularity of PV systems across the UK, UK Cylinders have developed a specifically designed 'PV priority' cylinder in both Direct, Indirect & Heat Pump models.

The Solar iBoost+™ is factory mounted to the cylinder and pre wired to the 1st immersion heater which is relocated at the base of the cylinders to ensure maximum available water capacity can be heated.

Throughout the day the water temperature is raised, reducing the operating time of the home's heating system.

## SOLAR iBOOST+

Increases self consumption of PV generated energy in the home

### FEATURES

- > Compatible with Battery Storage
- > Can assist in Building Regulations / SAP by reducing the number of solar panels required
- > Programmable Timed Boost
- > Reducing the number of solar panels can assist in G98 compliance and connection to the grid
- > Compatible with Dual Immersions
- > Can be Retrofitted to Existing Systems
- > User Friendly Display
- > Quick Installation Time
- > Wireless Technology

## Solar iBoost+ Performance

The CT clamp measures energy flow and switches Solar iBoost+ to maintain export at 100W or to the installer set threshold.

## Solar iBoost+ Key Functions

- > Manual Boost in 15 minute increments up to 2 hours.
- > Timed programming on 5/2 day basis, 2 times each day for economy settings.
- > Set Season for timed programming.
- > Easy connectivity with 'Optional' iBoost+ Buddy (purchased separately) for remote operation and monitoring.
- > Operating range between devices 30m indoors.

# Buffer Cylinders

UK Cylinders manufacture a complimentary family of buffer stores from 50ltr to 600ltr; made from high quality duplex stainless steel that can form part of the renewable energy heating system.

## SPECIFICATION

- > Using a buffer tank is often described by heat pump manufacturers as “the ideal installation” providing optimum performance.
- > The latest NHBC guidance (8.2/01) refers to the use of buffers as essential to create an efficient overall system. They are key to preventing short cycling allowing the heat pump to work at its optimum as well as reducing wear and tear on the heat pumps’ components.
- > If the flow to the heating system can be restricted using radiator thermostats, for example, install a UKC buffer as an intermediate tank. This ensures a secure flow for the heat pump, resulting in improved efficiency and operation of the heat pump.
- > Install a UKC buffer or combined heat pump and buffer to increase the overall system volume in the primary pipework, this helps limit switching the heat pump generator on/off and thereby prevents malfunctions and improves defrost cycles. The resulting use of back up heaters is limited and improves overall running costs.
- > The UKC buffer range also allows, a neutral point in the system; if required a different flow to the heating system, than across the heat pump.

## Buffer 50L - 60L

- > 50/60ltr stand alone buffer.
- > 5 x 1" female threaded connections as standard.
- > Thermostat pocket to allow independent control of the buffer temperature.

Description	Product Code	Nominal Capacity (L)	Weight (KG)	Weight full (KG)	Height (mm)	Diameter (mm)	Standing Heat Loss

# REDD

Plumbing, Heating  
and Renewable energy  
design services for the  
new build industry

REDD provide designs for all types of heating, plumbing and renewable energy systems. These designs can incorporate natural gas, low pressure gas (LPG), electric or oil-fired boilers, air source heat pumps (ASHP) or ground source heat pumps (GSHP) – Plus whatever Building regulations or SAP calculations the client requires.

Email your design enquiry to  
[designs@reddesign.uk](mailto:designs@reddesign.uk)

Renewable Energy Domestic Designs (REDD) core business is to provide a free-of-charge heating & plumbing design service to the new build housing sector. This is a 100% independent design company, able to provide designs for the domestic new build market incorporating any number of gas, electric or renewable energy based options.
